1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative on April 21, 2004.

The application has been amended as follows:

In the Claims:

Claim 17, delete "16" and insert --14--

Claim 19, delete "15" and insert --14--

Claim 20, delete "15" and insert --14--

Claim 21, delete "15" and insert --14--

2. The following is an examiner's statement of reasons for allowance: The invention relates to a method of forming products by bonding lignocellulosic particle material in which the material is subjected to a binding operation by curing a phenolformaldehyde resin and at least one maleic acid and/or maleic anhydride wherein the

maleic anhydride and/or maleic acid is added as a solid to the lignocellulosic particles either at the same time as the resin or is incorporated in the lignocellulosic mix separately to the resin so that maleic acid and/or maleic anhydride is in admixture with the resin when it is cured. In the references of record, the maleic anhydride was added to the resin in solution rather than in solid form as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Lechert Jr. whose telephone number is 571-272-1203. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on
